DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Ford on August 31, 2007.

2. The application has been amended as follows:

Claims 21-30 have been cancelled.

The above examiner's amendment was made to place the rest of the other claims in condition of allowance.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the steps of or means for **"waiting for a next synchronization pulse before shifting data into the receive channel register associated with the beginning entry"**, when the waiting is considered within the specific structure of the method recited in the method of claim 3 or the device recited in claim 13. The prior art of record fails to teach or make obvious the steps of or means for **"moving to a beginning entry in the received memory whenever a synchronization pulse is detected"**, when the moving is considered within the specific

structure of the method recited in the method of claim 4 or the device recited in claim 14. The prior art of record fails to teach or make obvious the steps of or means for **“identifying a current transmit channel register in the network processing device according to the current entry in the transmit memory”**, when the identifying is considered within the specific structure of the method recited in the method of claim 5 or the device recited in claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
